

GLITTERING SPLENDOUR

FABERGÉ transforms the ordinary into extraordinary with its vast collections of artisanal creations and we're transfixed.

Fabergé, the world's most iconic artist jeweller, creates extraordinary jewellery, timepieces and objets d'art, as well as bespoke commissions for a discerning international clientele.

Founded in 1842, Fabergé has been the most revered name in jewellery ever since Peter Carl Fabergé became official goldsmith to the Russian Imperial Court; the house created exquisite jewels and objects, including the legendary series of lavish and ingenious Imperial Easter Eggs.

Today, Fabergé takes inspiration from its storied past to introduce a new era of enchanting and enduring personal possessions and gifts for contemporary connoisseurs. By painting with the world's finest coloured gemstones, Fabergé

explores the art of colour through creations which are designed to become future heirlooms.

The Fabergé Imperial collection is inspired by the jewelled splendour of the Imperial Romanov court, and evokes the rhythms of the Russian seasons, whether literal or metaphorical. The jewels, in true Fabergé style, demonstrate an intuitive interplay of rare coloured precious gems, diamonds and pearls with superlative hand artisanship, to capture and reflect the changing light, colours and atmosphere of each season.

The Heritage collection draws inspiration from Fabergé's original jewelled masterpieces, capturing their refinement, cultural richness and technical perfection. Traditional, often complex, materials and techniques such as the delicate art of hot enamelling, the engine

turning craft called guilloché and hand-engraving, make up the signature elements of this colourful and opulent collection.

Current collections are available at Fabergé boutiques in London, as well as at Harrods in

London and other exclusive international retailers, including Asia Jewellers. Selected items are also available via Fabergé's online boutique at Faberge.com.
