de GRISOGONO  
GENEVE

CONTEMPORARY  
WOMAN.  
INDEPENDENT  
AND LOVING,  
FEMININE AND  
UNCONSTRAINED,  
VERSATILE AND  
CONFIDENT.  
DOES SHE SEEM  
CONTRADICTIONARY?

She is simply free and enriched by her many different facets, attracting light while jealously safeguarding her privacy.

On the occasion of the Paris Fashion Week, de GRISOGONO is treating her to an Haute Joaillerie collection reflecting her nature, eminently modern and brimming with contrasts.

The Maison's signature chiaroscuro effect is staged in creations with a rock 'n' roll vibe that offer a new way of beautifying gems. Asymmetrical earrings that appear to wind their way up the ear like silk ribbons; necklaces with various interpretations that reveal a multifaceted character...

The de GRISOGONO woman:  
bold, assertive and above all unique

# CHIAROSCURO

## GOLD RIBBONS

**HAUTE JOAILLERIE EARRINGS**  
**ONE-OF-A-KIND CREATION**

18K white gold set with two  
pear-shaped white diamonds  
(approx. 7.03 cts and 6.98 cts),  
336 black diamonds  
(approx. 6.61 cts)  
and 331 white diamonds  
(approx. 5.65 cts)

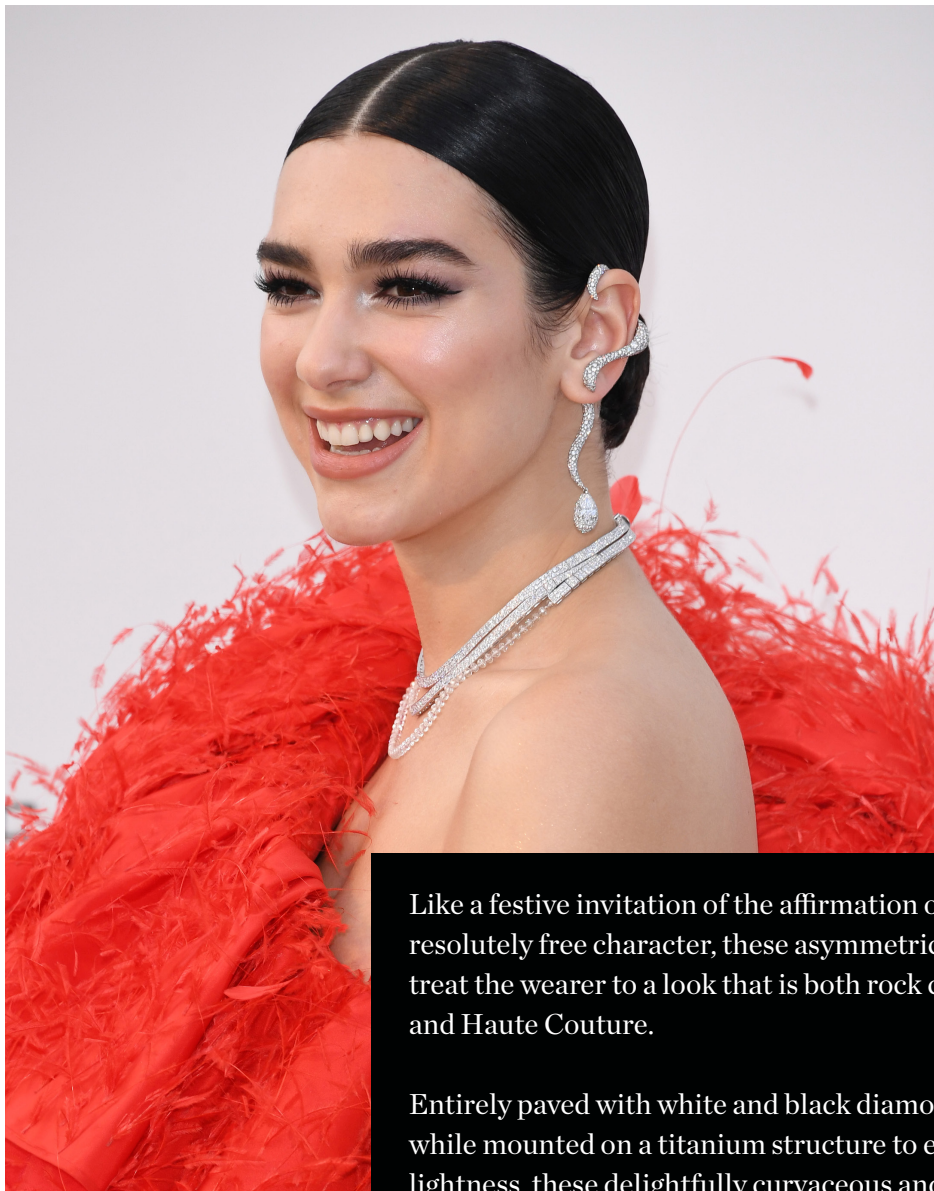

A quintessentially graceful and sensual gold ribbon coils around the ear, entirely set with white diamonds revealing black diamonds in its hollow... and the opposite on the other ear where black diamonds take over.

These earrings create an impression of perpetual motion that increases in size and intensity to reach a crescendo in a stunning pear-shaped diamond.

Adapting to individual desires, these earrings have a section that can be cleverly dissociated. The independent upper loop can thus be paired with the lower part to create a rock-style ear cuff.

## HAUTE JOAILLERIE EARRINGS ONE-OF-A-KIND CREATION

Titanium set with two white pear-shaped diamonds (approx. 3.16 cts and 3.060 cts), 1,288 white diamonds (approx. 31.082 cts) and 157 black diamonds (approx. 0.753 cts)

Like a festive invitation of the affirmation of a resolutely free character, these asymmetrical ear cuffs treat the wearer to a look that is both rock chic and Haute Couture.

Entirely paved with white and black diamonds, while mounted on a titanium structure to ensure optimal lightness, these delightfully curvaceous and eminently sensual jewels are each tipped with a pear-shaped diamond setting a crowning touch.

# THREE ROWS FOR A YOUNG WOMAN UNAFRAID TO STAND OUT FROM THE CROWD

## **HAUTE JOAILLERIE NECKLACE ONE-OF-A-KIND CREATION**

White gold set with 91 white briolette-cut diamonds (approx. 65.369 cts) and 912 black diamonds (approx. 17.33 cts)

At first glance, it might look like a classic three-row necklace... Yet as one draws closer to its radiance, the modernity and uniqueness of a de GRISOGONO design become clearly apparent.

This majestic, eminently supple and light creation combines two different diamond cuts – brilliant-cut for the paved part and briolette for the rest – in a truly spectacular masterpiece of glamour and femininity.

# BROWN DIAMONDS RULE

stages a magnificent show on this one-of-a-kind creation.

Entirely set with 1,167 brilliant-cut white diamonds,  
this necklace in white and pink gold also features  
182 bezel-set brown diamonds that appear to trace trails  
of light on either side of the star gem.
