## **FENDI Timepieces Presents the *Fendimania Bracelet* Watch for Women and Men**

### **The signature watch enriched with a contemporary bracelet**

The *Fendimania* Collection welcomes the *Fendimania Bracelet*, a new version of the signature watch for women and men with a modern bracelet accented by the iconic FF logo-shaped bezel, for a structured yet elegant aesthetic.

#### **A modern take on the distinctive silhouette**

A bracelet enriches the *Fendimania* design, adding a contemporary twist to the watch and complementing the Collection with new bold yet elegant versions.

The *Fendimania Bracelet* for women is fitted with a bracelet that is seamlessly integrated into the structure of the case. Its delicately curved links, enhanced by alternating finishes, contrast with the streamlined design of the watch case. Graced with mother-of-pearl and diamonds on the dial, the timepiece blends elegance and modernity.

On the other hand, the *Fendimania* timepiece for men reveals its bold character through a daring interplay of shapes and textures. The square case, evoking the bespoke FF logo, is enhanced with beveled edges for a sporty allure. The black dial combines a graphic pattern and retro-inspired Arabic numerals, whilst the bracelet, distinguished by curved elongated links, softens the rigorous silhouette of the watch.

Combining a timeless style with a fashion-forward appeal, the *Fendimania Bracelet* for women and men reveals a new modern vision on the signature Collection.

#### **About FENDI Timepieces**

FENDI, the Italian luxury House with roots dating back to 1925, began its foray into the world of luxury timepieces in 1988. Since then, FENDI Timepieces has unveiled some of the most iconic wrist designs for women and men combining Italian taste and Swiss craftsmanship and focusing on the opulence of materials and colors. All FENDI Timepieces are manufactured in Switzerland.
