

ICON ACTIVE

Versace Watches – Fall - Winter 2021 Collection

The new **Icon Active** is a bold chronograph conveying a distinctively urban, sporty point of view with an unmistakable touch of Versace style.

Icon Active celebrates youth and street culture. A mix between contemporary and casual, it's the perfect blend of a fashion accessory and a luxurious watch.

Available in a wide array of colors - suitable for men and women – features a transparent polycarbonate case enclosed in an IP champagne or IP gun cage held by four screws. On the dial, the Medusa at 12 o'clock is a strong statement of brand identity. Appearing right under her, the Versace logo is repeated on the top ring at 12 and 6 o'clock.

Visible through the curvature of the inner ring, the Greca motif surrounds the dial with a subtle touch of refinement; while on the metal loop placed around the strap at 6 o'clock it becomes a powerful design element, adding preciousness and personality to this timepiece.

Available from August in Versace stores, at authorized retailers, and on [versace.com](https://www.versace.com).
